M365DelegateCalendarAddRemove

Overview

Use this to add and remove calendar delegates in Microsoft 365.
Can also give access to contacts.

```
-------------------------------------------------------------------
M365DelegateCalendarAddRemove.ps1                                  1

Bulk actions in M365

Use this to add and remove delegates

Owner_ID,Delegate_ID: Owner and Delegate info
NotifyDelegate      : TRUE (Delegate is sent a summary of access)
Contacts_Edit       : TRUE (Additionally, contacts are editable)
Private_Items       : TRUE (Private items too)
RemoveAllAccess     : TRUE (Delegate is removed)

CSV: M365DelegateCalendarAddRemove.csv (1 entries)

Owner_ID              Delegate_ID             RemoveAllAccess Contacts_Ed

--------              -----------             --------------- -----------
                                              FALSE           FALSE
```

Use these columns in your CSV file to control delegate options

Owner_ID,Delegate_ID: Owner and Delegate info
NotifyDelegate   : TRUE (Delegate is sent a summary of access)
Contacts_Edit   : TRUE (Additionally, contacts are editable)
Private_Items   : TRUE (Private items too)
RemoveAllAccess   : TRUE (Delegate is removed)
